

Energy Hog

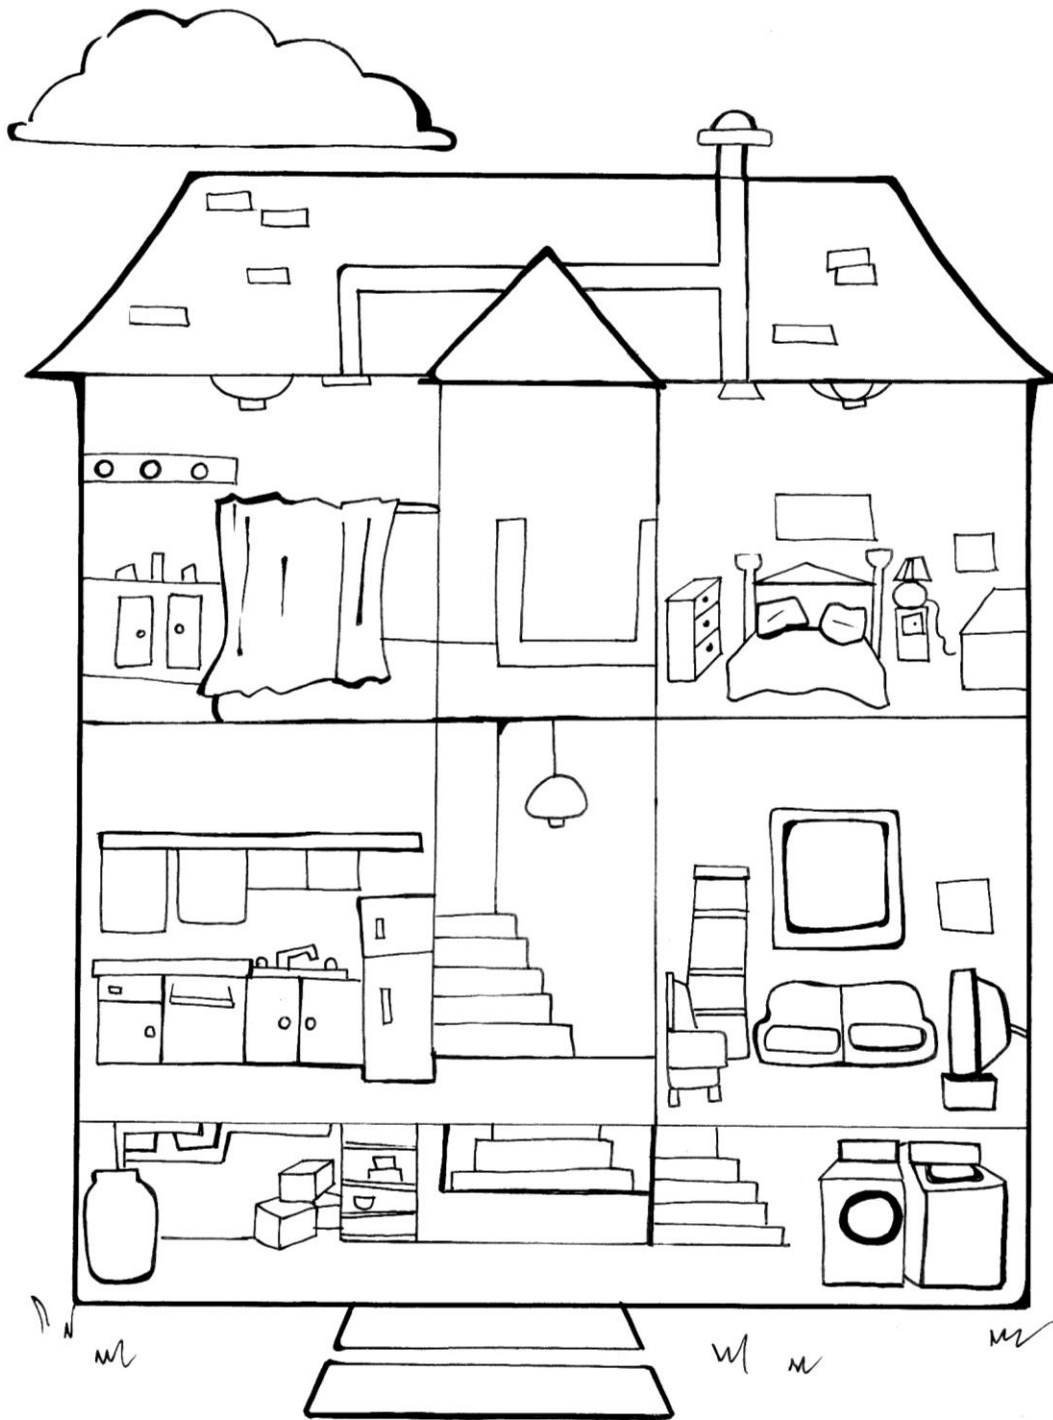

COLORING BOOK

Energy Hog Buster Name _____

Energy Hogs find energy to waste.
So quick, let's stop them, there is no time to
wait!

Inside your house an Energy Hog may be a surprise.
But now you can bust them, if you know where
they hide.

You can see an Energy Hog by day or night, when an empty room is bright. Don't let an Energy Hog give you a fright – just be sure to turn off the light.

When the fridge door is opened wide, you can
be sure to find an Energy Hog inside.
Close the door fast to stop an Energy Hog in its
tracks!

It is fun to play games or watch a TV show, but make sure to turn it off before you go. Don't give Energy Hogs a chance to watch and play – they will just waste energy all day!

An Energy Hog likes to brush his teeth with the water running and bathe for an hour.
But Hog Busters know to quickly turn off the sink, bath and shower.

Clean and bright CFLs are what it's all about – don't
let Energy Hogs throw them out!

Next time you spot a Hog, tell it loud and clear:
“Don’t you waste energy here! I’m too smart for
you – I’ll save energy and make you disappear!”
