

**Condom Size Chart With Snug, Regular & Large Size Condoms**

In the [Condom Sizes](#) post I've presented a short [condom size chart](#) with just a few condoms in each size category.

I've broadened these categories and I've added additional descriptions and dimensions for each condom. This should help you in choosing the perfect condom for you.

So, without further ado, here it is – the detailed **condom size chart**.

**Condom size chart**

Quick Tip on How To Find Your Condom Size: if your penis girth is below 4.7 inches (119mm) check out the **snugger fit** section. Regular condoms will best suit you if your girth is between 4.7"–5.1" (119-130mm). Guys with girth bigger than 5.1" (130mm) should use a **larger condom**. If you're not sure how to measure your penis read [this post](#) and to understand how condom width is measured read [this one](#). To get more accurate suggestions for your size check out the [condom calculator](#) tool. You can read more about how to choose your size [here](#) and [here](#).

\*dimensions in this condom size chart are gathered from various online sources like manufacturer websites, FDA issued documents, product pages of different distributors and online stores, as well as performing our own measurement of certain products.

Can't find the condom size you're looking for? Well, in the US, condom size is regulated by the FDA. ONE® Condoms is excited to introduce 60 perfect-fit condom sizes to the United States in Fall of 2017.

These include sizes larger and smaller than anything currently available on the U.S. market, marking a historic shift in the range of condoms that are cleared by the FDA for sale.

In Europe, however, there are no such regulations so men can choose between much broader range of condom sizes. A condom brand from UK called TheyFit recognized the need for better fitting condoms and came up with a revolutionary concept – custom fit condoms with 66 different sizes! They are also the only brand in the world offering condoms that are <6.7" long. **You can check all TheyFit sizes here.**
